HEARING PROTECTION

WHY CRESCENDO?

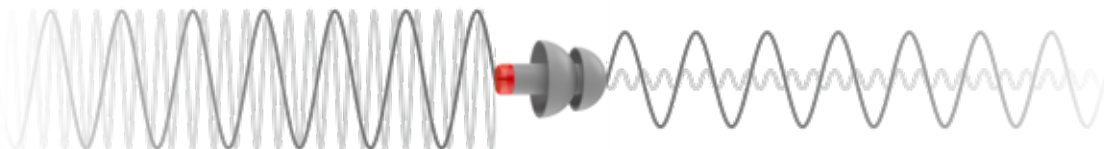

SPECIAL MESH® AND MEMBRANE® FILTERS

High-end MESH® and MEMBRANE® filters reduce loud sound and noise while keeping relevant sound and speech, therefore retaining situational awareness and communication.

Standard tube filters:

Average sound quality, attenuates mostly high frequencies.

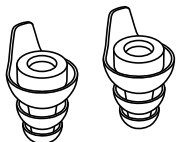

MESH® filters:

Very good sound quality, attenuates low and high frequencies more equally.

MEMBRANE® filters:

Excellent sound quality, attenuates low and high frequencies equally.

MEDICAL GRADE TPE EAR TIPS

Our ear tips are made of a medical grade TPE. This material is designed to meet the strict requirements of medical devices for use in the human body and are free from PVC, phthalates, BPA, latex and oil, offering a safer and more comfortable replacement for materials such as silicone, flexible PVC and Polyurethane.

100% QUALITY CHECK

We guarantee the performance of your Hearing Protection as we carried out a 100% final acoustical test on the filters. When correctly fitted you can be certain that you will receive the protection level as stated on the packaging.

COMPLIANCE

Crescendo Hearing Protection complies with PPE regulation EU 2016/425, developed and manufactured to ISO 9001:2015 at our certified production facilities in the Netherlands.

ECO FRIENDLY PACKAGING

Packaging manufactured from FSC® certified paper and produced CO₂ neutral in the Netherlands.
